

Entry 3 / Level 1 LEAP Hub MVS (Motor Vehicle Studies)

Programme Outline:

LEAP Hub MVS is a practical based programme that focuses on basic mechanics and motor vehicle checks.

Students can develop their knowledge and understanding of motor vehicles through practical skills in a dedicated garage workshop environment, in addition to the theory of basic car mechanics.

LEAP Hub MVS covers the following areas:

- Basic car maintenance
- Routine vehicle checks
- Vehicle valeting

The MVS workshop has a full working car lift among other specialist tools and industry recognised equipment. The programme provides students the opportunity to develop skills in a safe working environment, preparing them to progress on to the next stage of their career pathway.

Progression:

On successful completion, progression is likely to be: full/part-time employment, further education, a supported internship or apprenticeship.
